Friends here have received news from Rev. I. B. McFadin and wife who are now living at Brownsville, Texas, where he is Minister of the Church of Christ. He was formerly Minister of the Wilcox Street Church of Christ in this city.

Rev. and Mrs. McFadin are well pleased in their new home "a big town of nearly 25,000." The church has just recently been repainted and otherwise improved and has been having full auditoriums for all services. He made a trip to Old Mexico last week to a typical old Mexican town, which was most enjoyable. He says they enjoy reading the Daily Courier-Gazette with news of old home friends in McKinney and Collin County. It was with regret that McKinneyites learned of their departure, but wish them much success in their new field of work.

Awards Given Boy Scouts At Court Of Honor

A large number of Boy Scouts, most of them representing McKinney Troops, and a number of relatives and friends attended the Court of Honor of the Collin District, Boy Scouts of America, held in the District Court Room, Thursday night, when honor medals were presented by H. S. Ware, of McKinney, Advancement Chairman of this District.

In making the presentations, Mr. Ware paid tribute to each boy, who he said, had earned high honors by his splendid Scout work in his community. He reminded the boys that they are the future men of McKinney and Collin County, and the foundation they are now building through Scout work will be invaluable to them in the years to come.

Purpose of these Courts of Honor, Mr. Ware said, is to publicly pay honor to the Boy Scouts who had been outstanding in their Scout activities. A few of the boys who had earned awards were present, but their badges will be sent to them, according to F. J. Ross, of McKinney, Scout Field Executive for Collin, Kaufman and Rockwall Counties, who with a number of other local Scout officials, attended the program.

Those who were announced as entitled to awards included the following Scouts: James W. McEe and Doyle Murray of McKinney and Monte Lee Hill of Frisco, Second class; Billy Coffman, McKinney, First Class and Merit Badges in Music, Personal Health, Firemanship, and Pathfinding; Kenneth Barker, Frisco, Merit Badges in Aviation, Reading and Public Speaking; Eddie L. A Boy Scout tent has been put up, to the left of the main entrance to the Coliseum, where a First Aid Station will be maintained by the Scouts during the Free Fair. There will be Scouts in attendance continuously during the four days, announced Scout Executive Ross Tuesday.

The boys will give practical demonstrations of first aid work as it is taught them in their regular activities.

Weston Resident Is Active At 85

One of the oldest residents of the Weston community, Mrs. Hulda Peebles, who will reach her eighty-sixth birthday Sept. 30, can still piece quilts and even thread her own needle without the aid of glasses. She has never owned a pair in her life.

She also does her own housework with the aid of a son, Sam, who resides with her. Since buying a house in town a year or so ago she has made a number of improvements. She had the house painted and interior decoration done. A picket fence was built about the yard. Mrs. Peebles enjoys raising chickens, a garden and flowers.

A native of Tennessee and widow of the late Joe Peebles, she has resided in the Weston community more than 40 years. She has two other sons, W. R. Peebles of Weston and Chief Peebles of Waco.

A stickler for order, she has a fixed schedule for each day in the week, from washing on Monday to house-cleaning on Saturday. She also likes to indulge in some of the pleasures of the younger generation. For instance, she has made a tour of the Dallas zoo and visited neighboring old settlers picnics this summer.

Receives Gift Of Raw Sugar From Her Son

Mrs. Robert Murray, who lives near the Wetzel school house, four miles South of McKinney on Highway 75, recently received a sack of raw sugar, sent to her from the Hawaiian Islands. The sugar was sent by her son, Austin H. Murray, who is an officer in the Marine Corps, being stationed there. He procured the sugar from the sugar mills, this being the principal money crop and industry of the Islands. He says the mills resemble our cotton mills and employ hundreds of people. He wanted his folks at home to see raw sugar, hence sent the large sack of it to his Mother. It is a brown and white mixture and resembles light colored sand.

Austin Murray is a Collin County reared boy, being a graduate of the Boyd High School, where he was a star athlete, being an outstanding football player. For the past several years he has been in the service of his country, and as stated above is now off the Hawaiian Islands. He occasionally comes home on a vacation at which time he is gladly received by his relatives and friends.

MANY COLLIN CAR OWNERS DO NOT HAVE CERTIFICATES OF TITLE FOR VEHICLES

Fully forty percent of the automobile owners in Collin County do not possess certificates of title for their vehicles, according to an estimate of County Tax Assessor-Collector Clint M. Lewis and his Deputy, J. R. Stewart, who has charge of the Automobile Division of that office.

A new State Law provides that all owners of motor vehicles must have certificates before January 1, 1942. After that date it will be a violation of the law to drive a motor car for which a certificate of title has not been issued and the State Highway Department promises vigorous enforcement of the law, Mr. Lewis said. He called attention to the fact, also, that 1942 license plates cannot be obtained until the certificate is shown. Mere application for a certificate of title is not sufficient, he said, as the certificate itself, a photostatic

McKinney Feels Effect Of Coastal Storm; Rain Falls

McKinney and Collin County citizens, Wednesday, felt the effect of a tropical hurricane, which has been playing up and down the Texas coast. Cloudy weather, which arrived Tuesday, brought intermittent rains and showers that night and Wednesday morning. Cooler weather and some wind accompanied the change in weather, as the wind whipped to the North. Wednesday morning's low reading was 64 degrees, and local citizens apparently were enjoying the ideal temperature. Rainfall amounted to .06 inch up to 7 a. m., Wednesday.

The rains, according to the weather man, are caused by increased humidity from moisture thrown in the sky by the hurricane.

News came Wednesday from the storm-riddled Texas coast that two persons had lost their lives in the hurricane. Mostly cloudy Wednesday and Thursday, with occasional rains Wednesday and continued mild temperatures with maximum Wednesday near 85 degrees, is the weather prediction for McKinney and vicinity.

McKinney Young Man Member Of Longhorn Band

When University of Texas students or ex-students get together, the "Eyes of Texas" are upon them, but eighty Freshmen members of the Longhorn Band recently played the school song for their first time on the Forty Acres.

The Freshmen made their first public appearance at the "Yearling Round-Up"—a special pep rally planned as a part of the University's freshmen orientation program.

Boosted by only two rehearsals, the band played all the Texas fighting songs as well as several more formal marches. Hereafter, the freshmen will work with the returning band lettermen to make a complete playing unit of nearly 225 at football games, pep rallies, concerts, nearly all public ceremonies of the University.

Hugh Lee Kirkpatrick, flute player from McKinney, was among the freshmen giving their initial performance as members of the Longhorn Band.

Mr. and Mrs. J. C. Skipworth of Dallas have announced the birth of a son, Larry Jay, Friday at the home of the maternal grandparents, Mr. and Mrs. Harvey Estep, of Weston. Mrs. Skipworth is the former Miss Olea Estep.

The report of the Training Seminar, of which Clyde Doyle is Chairman, reported that Thursday night, October 2, at 8 o'clock is the date for a training seminar at the district courtroom, to be followed by a seven-night training session soon afterward, which will be county-wide.

Cotton Picking Is Order Of Day In Collin County

Cotton picking throughout Collin County is in progress and the heavy rain Tuesday night did little or no damage to the crop because it was confined to the City of McKinney and the immediate territory adjacent, according to County Agricultural Agent Jack McCullough, who has just completed a trip of inspection around the county.

"It was very fortunate the downpour was confined to the McKinney vicinity, and I am glad to report that farmers and pickers were in their fields Wednesday, right after that heavy rain Tuesday night," said Agent McCullough.

He called attention to the high prices being received by cotton farmers and said while the crop is short this year the growers will probably receive as much cash return as they did last year for a much larger yield.

Heaping truck loads of cotton are arriving in McKinney every day now and the five local gins are kept running full time. Both lint cotton and cotton seed are bringing top prices of the season, according to cotton men. Lint cotton is bringing up to 17 1-4 cents a pound and cotton seed are selling freely at \$57.00 a ton.

Cotton pickers are receiving \$1.00 per hundred pounds, according to Agent McCullough. He said more pickers are needed. "We should get the cotton out of the fields now as fast as it opens up," said Agent McCullough.

He said the boys who will form this county's quota on this call under the Selective Service Act will be made to realize that McKinney and Collin County are proud of them.

Mr. Wilson is expected to announce the name of the principal speaker within a few days. He himself will probably tell the boys some of the things about life in an army camp.

The meeting will start at 8:30 o'clock, with Mr. Wilson presiding as Master of Ceremonies. County Judge H. H. Kiss those dollars goodbye spent away from home. Make a resolution to patronize home merchants 100 per cent.

Commercial greed deadens the nerves of sympathy of nations, and makes them deaf to the demands of honor, the impulses of generosity, the appeals of those who suffer under injustice.—Albert Pike.

Dr. George W. Truett began his forty-fifth year as Pastor of the First Baptist Church in Dallas Sunday. The membership of his church grew in those forty-four years from 715 to more than 8,000 members. The church is one of the strongest in Texas. Dr. Truett is a brother of Hon. L. J. Truett of McKinney, former County Attorney of Collin County.

Nine German and Italian airlines are known to be operating without obstruction over several important and militarily strategic sections of South America. These lines last year flew 3,700,000 miles over routes totaling 21,762 miles. Commercial losses, increased American competition and pressure brought to bear on the companies have had little effect on their operation. President Roosevelt's blacklist of South American firms known to be sympathetic to the Nazis is expected to curb their growth.

Boy Scout work continues to grow and advance in McKinney and Collin County. With F. J. Ross, the newly-appointed Scout Field Executive, on the job, aided by a group of prominent business men, the Scout organization is planning its annual financial drive, to be made early next month. Scouting needs your moral backing and your material assistance. Making better men out of our boys is a worthwhile program and one that is deserving of your cooperation.

ADDED EMPHASIS PLACED ON TERRACING.

Terrace your land now and pay later when you get your AAA payment is the new device Texas farmers will have available under the farm program in 1942.

With the program placing still greater emphasis on soil-building practices in 1942, terracing has been added to the conservation materials and services program to enable more farmers to terrace their land, says Fred Rennels, Assistant Administrative Officer of the AAA in Texas.

This phase of the AAA program, designed to assist co-operating farmers in carrying out more soil-building practices, already makes it possible for them to obtain phosphate, Austrian winter peas and vetch during the planting season and the costs of materials are being deducted from their AAA payments. Similar arrangements may be made in those counties which adopt the terracing program, Rennels explained.

County AAA Committees, in counties where there is sufficient demand for the terracing program, will let bids on a 100-foot basis to contractors who will be paid by the AAA after the terraces are completed, the AAA official said.

Since the expanding conservation materials and services program throughout the nation may result in difficulties in securing necessary seeds and supplies, terracing is being added to help farmers make the maximum use of the AAA's soil-building assistance. Future AAA payments no doubt will be contingent upon carrying out more soil-building practices, Mr. Rennels said.

Under this program, farmers may use 70 percent of their total farm payments for terracing.

THE LEGION SPEAKS.

Attitude of the American Legion in its Milwaukee convention, its reaction to the address of Secretary Knox and to the message of President Roosevelt, should be all the answer needed to the vapors of Nye, Wheeler and Lindbergh and their followers, says the Paris Morning News. The outbursts of applause, not made by irresponsible youngsters but by mature men, were genuine and expressed the conviction of the great majority of our people that we are entirely right in our course in dealing with the menace of Hitler and his aims.

These men, the members of the Legion, come from all walks of life. They are lawyers, and members of other professions, merchants, industrialists, mechanics, some well to do, others dependent on their daily labor for existence, but they are of one mind with respect to their duty to the country that provides their home and its sanctity. Most of them are men who have smelled powder, many of them have the scars of wounds received in actual battle against forces that threatened the safety of this Nation, and they are ready to send their sons into action if needs be, and to go themselves if that be necessary.

The American Legion is living up to its tradition and to its convictions. Organized to keep alive the spirit of freedom for which they fought, they are as determined as ever that this people shall not be denied the age-old freedom of action anywhere in the world to which they are entitled.

The senseless investigations that some of the members of the Congress insist on making should cease. There is no doubt of the temper of the people of this country as shown by the American Legion, and for hearings and investigations to continue would be a waste of time and money and be barren of any worthwhile result.

E. L. Self Writes Mayor Perkins

Mayor Tom W. Perkins is in receipt of a most interesting letter from E. L. Self, son of Mr. and Mrs. E. E. Self of this city, who recently enlisted in the U. S. Navy. He is now in Co. 41-120, U. S. Naval Training Station, San Diego, Calif., and his interesting letter is as follows:

"Here it is Tuesday, the 16th of September, two weeks to the day since I arrived here in 'Dago' as a Navy recruit, and I just now sit down to write you a letter. I intended to write you at least eight or ten times, but so far the Navy has done a pretty good job of producing work to thwart my many intentions.

"After I had passed my final exams in Dallas Saturday, August 30, I was both surprised and pleased to be told by Mr. Page, the Chief Recruiting Officer, that I was to be the officer in charge of the draft. That is, I had authority to give orders to the recruits and they were expected to obey. I was the equivalent of a petty officer, then, on the way to San Diego. I also had charge of meal tickets, railroad fares, bus fares, etc. The entire group behaved in true Texas gentlemanly fashion, however, and no complaint of unruliness was voiced by civilians.

"Perhaps you are like many other people, Mr. Perkins, and wonder what impresses new recruits most here at the base. Well, I can answer for nearly all of them. Most striking to them (as new recruits are termed) is the spotless cleanliness of the place. You could put all the dirt and filth you find in the whole base in the palm of your hands, almost.

"Another thing that impresses us is the huge Consolidated Aircraft Company nearby. Here, the big Consolidated British Bombers are turned out and tested. You can rarely look up without seeing three or four planes in the sky, and usually many more than that are in view.

"Altogether, it is a wonderful place here. Recruits have almost every recreation facility imaginable; all eating, sleeping, and toilet facilities are of the most modern type, the food is excellent (but not fancy); and everybody has the opportunity of making worthwhile friendships.

"In case you would like to know, almost a hundred percent of the boys believe war with the Axis is dangerously near. They show absolutely no fear, however. Instead, they seem to relish the idea, and express no doubts that the United States will be the victor in any naval engagement.

"Mr. Perkins, if you ever again run into a youngster who doesn't know exactly what he wants; who is groping somewhat blindly for something to become interested in, and who has a faint notion that he wants to join the Army, Navy or Marines, give him the same bit of advice and encouragement you did me, and as a result, I am sure there will be at least three happy parties—the lad, yourself, and Uncle Sam.

"With the deepest of thanks to you for your kindly advice and encouragement, I remain as ever, Your friend,
EDMOND LEONARD SELF.

The sinking occurred after President Roosevelt had issued his "shoot on sight" orders to the Navy. It was the third American-owned vessel to be sunk near Iceland and the sixth one sent to the bottom during the war. The German Embassy declined to comment on the sinking. There were no Americans aboard the ill-fated vessel.

To Form Stringed Orchestra In City

A stringed orchestra will be organized in McKinney, if the plans of Prof. G. C. Davis, of the Davis School of Music of Dallas, are successful.

Prof. Davis said he is receiving splendid cooperation from City Superintendent Jack R. Ryan, Prof. Stewart Jernigan, High School Band Director as well as other McKinney citizens interested in music, and he hopes to have his orchestra completed by the end of this semester, if not before.

Classes in violin are held every Monday and Thursday at the Boyd High School, with Prof. Davis as the instructor. He also gives private lessons, persons desiring to contact him may do so by telephoning the McKinney High School.

Having studied under such well known violinists as Fritz Schmitz and Alexander Lehmann, the latter of Chicago, and who has concertized in many countries in addition to America, Prof. Davis comes to McKinney highly qualified to undertake this important branch of the art of music. His two teachers studied under the renowned master, Joachim.

Prof. Davis gives class or private lessons in violin, viola, cello, and bass violin and he is extremely anxious to find the talent that he is sure exists in McKinney and vicinity. He will continue his classes at the Boyd High School through this term, with two sessions a week.

Selectees Urged To Keep Draft Boards Advised

Registrants under the Selective Service Act are required by law to keep their local Boards advised of their place of residence at all times, announces Arjt. General J. W. Page, State Director. He urges all young men who have registered to inform their board as soon as they change in status or address.

There is a heavy penalty for violation of this provision of the law. General Page pointed out, as it subjects registrants to a fine of \$10,000 or five years imprisonment, or both.

When local boards are unable to locate a registrant, the case is referred to the Federal Bureau of Investigation and in every case so far the boys have been located. Many times it was a case of neglect on the part of the boy in not notifying his board when he moved, but this does not relieve them from liability to prosecution, said General Page.

A few cases were reported by the two local boards, but in every instance the registrant was found and it developed that he had written the board and the letter went astray, or he was just getting ready to notify the board.

In no case has a Collin County registrant been prosecuted, according to T. B. Sisoo and U. S. Saunders, Chief Clerks of Board No. 1, and 2, respectively.

Parade Of Fine Livestock Over Downtown Streets

The twenty-third Annual Collin County Free Fair entered its third day Thursday with a full day's program filled with interesting features.

All of the exhibits in the Colliseum are in place and judging of the entries in several departments has been completed. Several thousand people visited Free Fair Tuesday and Wednesday and after viewing the attractive displays of agricultural, horticultural, culinary, textile and other exhibits the visitors thronged the many high class attractions of Dee Lang's shows and riding devices on the midway.

President Elton Riggs and Secretary W. Hammond Moore of the Free Fair Association declared that the Free fair is a great success. With the farmers busy in the fields with their late crops it was thought the attendance would not be as large, but Collin County folks upheld the tradition of this being one of the best attended County Fairs in Texas.

Colliseum Crowded

The Colliseum Wednesday morning was buzzing with activity, as judging of exhibits in the culinary department and several other divisions was continuing and the judging of horses and jacks in the livestock barns was started by R. S. Womack, prominent horse breeder of Sherman.

Fair crowds greatly enjoyed the concert given Tuesday night by the McKinney High School Band under the able direction of Prof. Stewart Jernigan. The Band will head the livestock parade at 5 o'clock this evening.

Entertainment features Wednesday included a dinner at noon for officers and Department Superintendents of the Free Fair Association, given jointly by the McKinney Rotary and Lions Clubs at the First Christian Church.

That evening at 7:00 o'clock a variety show was presented at the Fair Grounds by Uncle Cy Hilo and his talented company of entertainers. He calls his show the Home Folks Frolic and Fairgoers are promised some splendid entertainment in musical numbers and novelty acts.

School Children's Day.
Dee Lang's famous shows started up again this afternoon and will be going full swing the remainder of the day. All of the shows and riding devices are being well patronized. While the Fair will end Friday, the carnival will continue through Saturday night.

Dairy cattle, the pride of Collin County, will be judged Thursday by G. G. Gibson of the A. & M. College Extension Service and the big free entertainment feature will be the concert given by Cabell's Cowgirl Band Thursday night at 7 o'clock, furnished by Cabell's Inc.

Thursday is Children's Day. City Superintendent Jack R. Ryan says schools dismissed early in McKinney and asked the county schools to close at noon also. From 2 to 6 o'clock Thursday afternoon school children were admitted to every carnival attraction at a reduced rate.

Mrs. Leslie Perry of Yazoo City, Miss., who was operated on at the McKinney City Hospital several days ago, was taken to Farmersville Friday evening.

Lillian Mayne and Cecil Ann Hight, daughter of Mr. and Mrs. Cecil Hight, are spending this week-end with their aunt, Mrs. D. Work and daughter, Miss Isabel, in Durant, Okla.

Mrs. Fannie Nola Hill and son, Aure, will move shortly to a farm near Hector, Arkansas. Large Crowds Are Attending County Fair

Collin County's Annual Free Fair formally opened Tuesday morning with practically all the exhibits in place. The exhibits of fruits and field and garden products are excellent and, as always, the dairy and beef cattle, horses, hogs, jacks and sheep are a fine collection of livestock that could be gathered anywhere in Texas.

Regardless of the lateness of crops, Collin County farmers, their wives and children worked doubly hard to prepare creditable exhibits for the Free Fair and have done a creditable job. A visit to the Fair will convince anyone of that fact.

Demonstration Club Exhibit

Ladies of the Collin County Home Demonstration Clubs and Sponsors of the Girls' 4-H Clubs worked late Monday to put their display of entries in good shape, and this division of the Fair, situated on the North side of the Colliseum, does credit to their efforts. There are long rows of shelves displaying canned and preserved fruits and vegetables and a large and attractive exhibit of cotton dresses and household necessities made by the women and girls of Collin County.

Nutrition For Defense

On the right of the main entrance is the ventilated pantry containing a most interesting exhibit. It is the Nutrition for National Defense exhibit, prepared under the supervision of the county Home Demonstration Council and is one of the many educational features of the women's division of the Fair. Just in front of this is the large booth displaying hand-made fancy work. Farther West is the Boys' 4-H Club exhibit of field and garden grain, fruits and vegetables, this exhibit having been attractively arranged by County Agent Jack McCullough and his Assistant, V. C. Andrews.

On the Western end of the Colliseum is the large display of White Billows Flour and around to the left of this, on the South side of the building are the fine exhibits of the Future Farmers of America, a beautiful display of all kinds of agricultural products entered by the Vocational Agriculture classes of five schools of Collin County.

Hundreds of persons have remarked that it is well worth one's time to visit the Colliseum and livestock barns and inspect each exhibit in all departments. Those who have spent their lives in Collin County, will find it a revelation to see the high quality and varied products of the soil on display and in the textile and culinary divisions they will gaze upon the handiwork of some of the most skilled homemakers in this section of Texas.

Livestockmen predominated the crowds that began flocking to the Annual Collin County Free Fair Tuesday, the opening day, most of them arriving in the afternoon. Judging of beef cattle and sheep began shortly before noon and continued that afternoon with some fine specimens of pedigreed stock shown. Prof. W. R. Nisbet of A. & M. College was the judge of the beef cattle department and Mrs. Ammie Wilson of the sheep department.

The Free Fair will continue through Friday.

Dee Lang's famous Carnival Shows opened Tuesday after a 750 mile hop from Memphis, Mo.

Judging of Home Demonstration and Girls' 4-H Clubs exhibits was concluded Wednesday.

Wednesday was one of the busiest days of the Fair. Prof. M. C. Jaynes of A. & M. College judged the horticultural and agricultural exhibits and R. S. Womack, prominent horse breeder of Sherman, judged the horses and jacks.

A street parade through the business district started at 5 o'clock Wednesday afternoon, headed by the McKinney High School Band.

Uncle Cy Hilo and his Home Folks Frolic presented a program of hillbilly music and various variety features Wednesday night at 7 o'clock.

Miss Lorene Bryant of Weston has been elected primary teacher of the Cotton Hill School to succeed Mrs. Alvin Sexton, resigned.

Moore of Melissa, President, presiding. W. T. Dungan, Secretary, and many other prominent livestockmen were present as were officials of the Free Fair Association, including President Elton Riggs and Secretary W. Hammond Moore.

Interest centered around discussions of the plans for participation in the Free Fair, which opened here Tuesday.

Considerable enthusiasm greeted a report by President Elton Riggs of the Fair Association that the committee had been successful in raising funds for the cash prizes. He predicted a successful Fair and thanked the livestockmen for their interest and hearty cooperation.

McKinney Will Be Host To Meeting Collin Bankers

McKinney was selected as the December meeting place for the Collin County Bankers Association, the invitation being extended at the quarterly meeting held in Farmersville Thursday night. President Thos. Johnson, of the Collin County National Bank made the invitation in the form of a motion which was seconded by J. C. Stewart, Executive Vice-President of the Central National Bank.

The meeting Thursday night was held at the Farmersville Country Club, on the spacious club grounds. Some one hundred and twenty-five Collin County bankers and guests, many being from out-of-the-county, were in attendance.

Judge H. H. Neilson was speaker for the evening, bringing a most inspiring and interesting patriotic talk. He was presented by W. H. Jouett, cashier of the First National bank in Farmersville, who was Master of Ceremonies.

The group met at 7:30 o'clock for a delicious barbecued chicken supper served at long tables which were arranged in "V" shape. Preceding the sumptuous repast, Mr. Jouett led the group in singing "America," a social hour being enjoyed during the meal. After the program, a business session was conducted by C. B. Johnson of Celina, President of the First State Bank there and also President of the Collin County Bankers Association. Several out-of-county bankers from Dallas and other points were called on for impromptu talks.

G. C. Tate, 47, Of Celina, Dies In Dallas Sunday

Grover Cleveland Tate, 47, for thirty years a resident of Celina in Northwest Collin, died in a Dallas hospital Sunday evening at 8:05 o'clock after two weeks' illness. Funeral services were held in the chapel of the Helms Funeral Home at Celina Monday morning at 10:30 o'clock, conducted by Rev. T. P. Weaver, Pastor of the Methodist Church at Celina, with burial in the Celina Cemetery.

Active pallbearers were members of the Fire Department, and honorary pallbearers were the City Council members of Celina. Mr. Tate was born December 25, 1894, in Oakbluff, Ala., the son of Lemuel and Ola Tate. He was a member of the Methodist Church and had charge of the First Aid department of the Volunteer Fire Department of Celina.

His wife, the former Miss Kenon Childress, died in 1938. Surviving are two sons, G. C. Tate, Jr., and Billie Tate, and two sisters, Mrs. Pearl Morgan, of Chicago, Ill., and Mrs. Maud Coffey, of Del Rio.

Miss Marguerite Giles, daughter of Mr. and Mrs. A. J. Giles of Weston, has entered Denton teachers college as a freshman.

Jewel T. Brinkley, who underwent an operation at the McKinney City Hospital a few days ago, was taken to his home at Bailey Monday evening.

This office force received a treat of some Muriel cigars Monday afternoon, when G. P. Simon and A. M. Bates of the firm of P. Lorillard visited us and passed the "Muriel Senators" around. We appreciate their visit and also the gift of these fine cigars. Messrs. Simon and Bates are splendid high class gentlemen. They were in McKinney Tuesday calling on their trade.

Collin Youth, Member Girls' Club, Is Winner

He couldn't join a Boys' 4-H Club because there wasn't any in his community, but there was a Girls' Club, so he enrolled as a member, and he now has the distinction of winning first prize with a fine exhibit of canned peaches in the Girls' 4-H Club Division of the Collin County Free Fair, which opens here Tuesday.

Make no mistake about it, he is a real boy. He is 10-year-old Norman Lee, member of the Thompson 4-H Girls' Club and the only boy in Collin County to belong to a girls' club. He says that as soon as a Boys' 4-H Club is organized in the Thompson Community he will change his membership to that organization, but until then he is satisfied. He is naturally very much elated over the fact that he took top honors in the canned peaches division in competition with the little girls of his community. Residents of his community are very proud of him.

Gets Interesting Letter From Her English Cousin

An interesting letter from England was received recently by Miss Jeanette Odle, daughter of Mr. and Mrs. Johnnie Odle of this city, from Howard E. Early, a distant cousin.

Mr. Early refers to the irregularity of the mails between his country and the United States and then explains that his whole family is busy in war work. His father is with the Home Guard, his mother is doing A. R. P. work, his brother-in-law is in the army, his two sisters are knitting socks for soldiers, and Howard Early is in the service and "even grandmother is doing her bit on Flag Days," says the young Englishman. He adds "she is keeping wonderfully well for her age and her birthday was on July 9."

"By this time," writes Mr. Early, "you will have had your vacation—lucky you. Never mind, when all of this is over (and I hope it won't be long) I mean to have a holiday on your side of the globe, and as several here share the same view, I think you had better get ready for an invasion."

The letter, which had been opened and examined by the Censors, was postmarked Edington, Birmingham, England, August 16, 1941.

The membership contest of Men's Bible Class of the First Methodist Church got off to a good start Sunday morning, reports Thos. Johnson, Teacher of the Class, who said the attendance was above the average and he anticipates the campaign will be a great success.

Two teams of twenty men each, the Reds, headed by Captain J. T. McKinney Country Club Dance Proves Enjoyable Event

The McKinney Country Club's spacious club house was transformed Thursday night to present the appearance of a rural barn, with hay and straw scattered everywhere, old harness hanging around the walls and with two roosters perched near the ceiling to give the scene more realism. The occasion was the first old-fashioned barn dance given by the club this fall and it was a pronounced success, according to Jack Ward, President of the Club.

Blanket invitations had been issued to the general public and President Warden said about one hundred couples attended, many of them non-members. Music was furnished by Leonard McRight and his Hi-Way Melody Boys, who are heard regularly over the radio from Denison. The dance started at 8:30 o'clock and lasted until after midnight. YOUR HOME TOWN

MAKE FOOD ATTRACTIVE.

WITH THE COLLIN COUNTY

Free Fair in progress, the following

worthwhile information from Miss Myrtle Murray, Special

ist in Home Industries for the Texas A. and M. College Extension

Service should prove of interest. She says commercial salesmen

estimate that 70 per cent of all food products are sold because

of their appeal to the eye. So, Miss Murray is urging farm women

to make home raised or home made products they sell "look

good as well as good to taste."

Rural homemakers who increase the family income by selling high

quality products from the farm are now being urged to prepare

for increasing their sales during the Thanksgiving and Christmas

seasons. In most instances this is done by taking advance orders

for delicacies and by preparing extra supplies of non-perishable

products.

Miss Murray points out that many busy people appreciate the

opportunity of buying gifts wrapped and ready to address.

Here are some of the "gifts from the soil" rural women of

Texas sell during the holidays: good country butter wrapped in

gold cellophane; home-grown, home-cured ham; good country

sausage; packages of jellies, pickles, and preserves; home-raised

peas in colorful cotton sacks; gallon buckets of sorghum syrup

or honey; pot plants; cuttings and roots from choice shrubs; native

shrubs, balled and burlaped, ready to "set out"; beads made

from acorns, colored corn kernels, or cantaloupe seed; home-

made Christmas decorations and toys.

DON'T BURN LEAVES AND STRAW.

AND, WHILE WE ARE ON the subject of things agricultural,

we recall a suggestion recently made by M. K. Thornton, Ex-

tension Agricultural Chemist for the A. and M. College, who de-

clared: "Don't burn leaves and straw, for when decayed they

form humus. Humus in the garden helps keep moisture in the

ground, and in turn helps to prevent dry weather injury.

If you are fortunate enough still to have leaves around, save

them. They help to build the garden soil. Rake them when they

are wet into broad, flat-piled piles in a remote corner of the

garden and allow them to decay. If raked dry, wet them as they

are piled. The leaves may require a year to decay properly.

To hasten the decaying process, add to 20 pounds of dry leaves,

or to 49 pounds of wet, one and one half pounds of a mixture of

five pounds of ammonium sulfate, four pounds of ground

limestone and four pounds of

superphosphate. As an alternative choice, use one and one half pounds of a mixture of four pounds of cyanamide and four pounds of superphosphate. But do not mix either preparation until ready to use it.

Instead of these, the leaf hoarder may use two pounds of a mixture comprising five pounds of nitrate of soda, four pounds of superphosphate, two pounds of ground limestone, or one and one half pounds of hydrated lime. Later, woodsheds may be sprinkled over the pile at the rate of a half pound to 20 pounds of the original dry leaves.

LIONS DEFEAT BONHAM.

CONGRATULATIONS ARE due the McKinney High Lions of

Coach J. W. (Swede) McMurry for their victory over Bonham

High School in the season's initial game played in Bonham Friday

night. The Lions won by a score of 24-0, defeating a much

heavier team. But it's Fight that counts and Coach McMurry seems

to have plenty of that character- istic in his team this year. We

were thinking that if the local team doesn't win another game

this year—and we might add that they expect to win their share of

the season already is more successful than last year, when they

failed to win a game. Although they tied two contests, they

were never able to break into the win column.

GOOD INVESTMENTS.

IN TIMES LIKE THESE, invest in boys and girls. Men talk

about buying stock at the bottom. When you invest in a boy or

girl you are always buying at the bottom. You are sure that

the youngster is going up, and there is no telling how far. I in-

vest every man and woman in America to take a flyer in Child-

hood Preferred. I predict a great future for this security. It has in-

vestment merit combined with the more exciting speculative pos-

sibilities. You are sure to get a man or woman; you may get a

great man or a great woman.—Bruce Barton.
